Education

Manipal University 2022 – 2025

BCA(Bachelor of Computer Application) CGPA: **8.1**

Amrita Vishwa vidyapeetham 2026 – 2028

MCA(Master of Computer Application) CGPA: **NA**

Technologies

Frameworks, Libraries and Databases: React, React Native, Next Js, Redux, Zustand, Node Js, MYSQL, Mongo DB, Tailwind CSS, Material UI, Web Socket

Software Tools: GitHub, Visual Studio, NPM

Languages: Javascript, Typescript, Python

Experience

QOTO Technologies Dec 2024 – Feb 2025

Software Engineer Intern

- **Developed a School Management System**, streamlining **admin operations** with **CRUD-based management** for **classrooms, employees, and departments**. Built an **Attendance System**, **Employee Profiles**, and a **Classroom List** to enhance efficiency.
- **Enhanced user engagement** with interactive features like a **Leave Application System**, **Calendar View**, **Employee Timetable**, and **Course Module** for managing **study materials, exams, and assignments**.
- **Optimized administrative workflows** by implementing **Payroll Management**, an **Exam Marks Upload System**, and an **Academic Calendar** for tracking events and holidays.
- Tech Stack: **React Native**| **Expo** | **Context API** | **TypeScript**

Infosys Mar 2024 – Jun 2024

Full stack Developer Internship

- Developed a **crypto trading platform** with **secure authentication**, **real-time crypto tracking**, and **trading functionality**.
- Built a **dashboard** displaying **50 trending cryptocurrencies**, a **live search bar**, and **buy/sell options**.
- Implemented **profile management**, **transaction history**, **portfolio tracking**, and a **leaderboard**.
- **Tech Stack: HTML | CSS | Javascript | Reactjs | Nodejs | Expressjs | Mongodb**

Projects

Virtual Crypto Stock market App Link | Github

- **Built a crypto trading platform** with **secure OTP-based authentication**, enabling **crypto buying/selling**, real-time tracking of **50 trending cryptos**, and a **portfolio** to monitor **profits, losses, and balance**.
- **Enhanced user engagement** by implementing a **leaderboard** ranking the **top 10 users by profit**, fostering **competition** and an **interactive trading experience**.
- **Tech Stack:** HTML | CSS | JavaScript | React.js | Node.js | Express.js | MongoDB

EatFood Link | Github

- **Developed a food ordering system** with a **dynamic catalog**, real-time **cart management**, **secure authentication**, **order history**, and an intuitive **search bar** for easy navigation.
- **Enhanced user experience** with a **responsive, mobile-friendly UI** and an **interactive design**, ensuring seamless accessibility across all devices.
- **Tech Stack:** HTML | CSS | JavaScript | React.js | Node.js | Express | MongoDB

NexChat Link | Github

- **Built a real-time chat app** with **secure JWT authentication**, **text/image sharing**, and **online user tracking** using **Socket.io**.

- **Optimized performance** with **lazy loading**, efficient **Socket connections**, and **Zustand** for state management. Designed a **theme-switchable UI** with **Tailwind CSS & DaisyUI**.
- **Tech Stack:** React.js | Node.js | Express.js | MongoDB | Socket.io | JWT | Tailwind CSS | DaisyUI | Zustand
